

Caswell Horticulture Club

Membership

Being a member of the Caswell Horticulture Club means being involved in the community and making a very visible contribution to the appearance and stability of the Yanceyville Historic District. Since its organization in 1997, the CHC has designed, planted, and maintained the gardens on the Courthouse Square and those around the Courthouse. It also developed a native plant arboretum behind the Courthouse. The CHC hosts a biannual Plant Seminar with noted horticultural speakers that draw large, enthusiastic audiences. Social events for members take place twice a year, and are well attended. Meetings are held each month. To learn more about the CHC visit its website at: <http://caswellhc.org/>
